Let's do great things together!

UNICEF Innovations Lab Kosovo is looking for 4 Mentors to voluntarily support its Youth Empowerment Platform team by training adolescents and youth at Ponder: Critical Media Literacy Workshop. The mentors will work closely with the Lab team to understand Critical Media Literacy concepts and internalize the Ponder Curriculum so as to be able to facilitate the training.

PONDER: Critical Media Literacy Programme helps young people from Kosovo improve critical thinking skills, be conscious, aware, understand and evaluate the information they encounter from a critical perspective—empowering youth and adolescents to challenge indoctrination and anti-social messages with a critical interpretation of what they see, hear, and read, all while realizing their role as agents of social change.

The mentor/trainer will work with the selected team for three days, from 11-13 May.

### Innovations Lab Mentor
